The Mobile Signal Jammer can help to block the mobile signals for any area that are confronted with cellular communication problems: for example, loud incoming call rings, loud telephone conversations, secret leaking and bomb explosion through Mobiles, electromagnetic radiation to gas station, chemical material warehouse and hospital equipments. This product is suitable in executive offices, board meetings, conferences, seminars, libraries, cinemas, religious places, public transport, concert halls, restaurants and educational institutions, Prisons, etc.

Mobile Signal Jammer transmits strong power radio signals to cut-off communications between Mobile and cellular base-stations, effectively disabling mobile phones within the shielding range of the jammer, preventing them from receiving signals and from transmitting signals.

Upon activating Mobile Signal Jammer, all idle phones will indicate "NO SERVICE". Incoming calls are blocked as if the cellular phone is OFF. When Mobile Signal Jammer is turned off, all cellular phones will automatically re-establish communications and provide full service.

Key features

- ✧ Built-in antenna facilitates the installation.
- ✧ The shell made of ABS fireproof material is environmentally friendly and safe. Built-in cooling aluminum alloy and fan, low operating temperature.
- ✧ The product is equipped with indicator and LED screen to monitor the power supply, current, power and temperature when the equipment is working in real time.
- ✧ Special technology to prevent interference between each frequency band
- ✧ Only interfere downlink frequency of mobile system , without disturb normally working of Base Stations
- ✧ Broadband segment covering, Can jam all wireless signals: WiFi,2G, 3G, 4G,5G

Applications

- ✧ Conference rooms for governmental and military affairs: to prevent secret leaking and spying;
- ✧ Locations for examination: to prevent cheating with cellular phones;
- ✧ Conference rooms and buildings for police departments: to prevent secret leaking before important arrest actions;
- ✧ Petroleum refineries and petrochemical works: to prevent gas explosion caused by electrostatic;
- ✧ For national security administrative: to control mass movements in specific range, to disable remote control on bomb via cellular phones, to cut-off mobile communication in specific areas like frontiers, coasts and prisons;
- ✧ Cinemas, opera houses, concert halls, religious places, libraries, examination hall, educational institutions: to prevent noises caused by cellular phones

Specifications

Items	Specifications	
Jamming Systems	2G, 3G, 4G,5G,WiFi2.4G,WiFi5.8G	
Channel	Frequency Range	Output Power
CH1(B28)	758-803MHz	39±1dBm/8W
CH2(B8)	925-960MHz	39±1dBm/8W
CH3(B3)	1805-1880MHz	39±1dBm/8W
CH4(B1)	2110-2170MHz	39±1dBm/8W
CH5(B38)	2570-2620MHz	39±1dBm/8W
CH6(B7)	2620-2690MHz	39±1dBm/8W

CH7(n28)	3300-3570MHz	39±1dBm/8W
CH8(Wi-Fi 2.4G)	2400-2485MHz	39±1dBm/8W
CH9(Wi-Fi 5.8G)	5725-5850MHz	33±1dBm/2W
Output Power	8/2W per Band	
Total Power	66W	
Jamming Radius	5-25 Meters(It Depends on the Strength Signal in the Target Area)	
Antenna Type	Omni Antenna(External Antenna)	
Power Supply	AC110-240V,50/60Hz	
Dimensions	430×340×75mm	
Net Weight	≤3kg	
Temperature Range	-20 to +50°C	
Application	Indoor	
Mounting	Wall Mounting	
Antenna	Build-In Antenna
