n Aluminum-alloy casing with IP65 protection has high resistance to dust, water and corrosion

n Tx/Rx control and alarm messages can be transmitted via one fiber optic cable

n Support star, Daisy chain and hybrid connections, 1 MU can support up to 4 links, each link can support up to 8 RUs to maximize utilization of fiber optic cable

n Adopting WDM and A/D module to realize long-distance digital signal transmission

n Noise suppression function and Automatic system delay calibration function

n USB port provides a link to a notebook for local supervision or IP Based NMS(Network Management System) that can remotely supervise DAS's working status and download operational parameters to the DAS Via Ethernet or LAN.
