n Aluminum-alloy casing with IP65 protection has high resistance to dust, water and corroding

- n Low interference to BTS by adopting linear amplifier with high gain and low noise
- n Adopting filter with highly selectivity and low insertion loss eliminates interference between uplink and downlink
- n USB port provides a link to a notebook for local supervision or to the built-in wireless modem to communicate with the NMS (Network Management System) that can remotely supervise repeater's working status and download operational parameters to the repeater
