- (1) Based on the principle of PAS (Lateral Projection System), adopt advanced image detection algorithm;
- (2) Double core align structure, higher success rate of fusion and lower loss;
- (3) Adopt 4.3 inches 16:9 TFT colored LCD screen;
- (4) Typical fusion time: 7sec;
- (5) Typical heating time: 7-17sec;
- (6) Multi-functional, small-sized, portable, can greatly improve working efficiency;
- (7) Can detect the air pressure, temperature and humidity and other environmental factors and automatically calibrate arc.
- (8)Language:English(Spanish,Portuguese,Thai,Russian for option)
- (9) 6.5KG size:42\*32\*23cm
