## TS-E300 Plus

TS-E300

???????(Anti-tampering wireless handheld device)

??: ???? **On Order** 

????????

??

**F300-Plus** 

It can quickly and effectively monitor and identify all indoor and in-vehicle wireless photography equipment

No matter how those wireless photography equipment disguise themselves as anything

(Cichres, buttons, bags, cups, books, etc.), even if the wireless photography equipment is hidd.

They can be accurately positioned on the sofa, on the ceiling and on the concrete wall.
