Ø Five signal ports with full duplex design.

Ø Linear power amplification to effectively suppress inter-modulation and spurious emission.

Ø Stable and improved signal transmission quality.

Ø Aluminum-alloy casing with IP55 protection has high resistance to dust, water and corroding.

Ø Smart Automatic Level Control (ALC) ensures output level stable and adjustable continuously.

- Ø Auto Isolation check between service and donor antennas.
- Ø Smart mode to auto-adjust gain according to the isolation and signal level received by donor site.
- Ø Simple installation.
