Key features

- Ø Two signal ports with full duplex design.
- Ø Linear power amplification to effectively suppress inter-modulation and spurious emission.
- Ø Stable and improved signal transmission quality.
- Ø Built-in 5G Dynamic TDD Sync Detection Module, automatic completion of 5G wireless network cell search and wireless signaling processing.
- Ø Smart Automatic Level Control (ALC) ensures output level stable and adjustable continuously.

- Ø Auto Isolation check between service and donor antennas.
- Ø Smart mode to auto-adjust gain according to the isolation and signal level received by donor site.
- Ø Simple installation with external AC/DC adapter
