JTD-GLA-1164-1616-40 ?????????????????????????????????????GPS, Galileo, GLONASS?Beidou2?(??GPS L1???)??????40dB,??????2.5dB.?????20mA, ?????????????????????????????????**JTD-GLA-1164-1616-40**????????????????????????????????

JTD-GLA-1164-1616-40 online amplifier is a single-stage low-noise waterproof amplifier. Covered frequencies include GPS, Galileo, GLONASS and Beidou2 (including GPS L1 amplifier). Its gain is 40dB, the noise coefficient is less than 2.5dB. The power consumption is less than 20mA, the equipment and the receiving antenna are installed vertically, and the power is taken from the voltage output terminal of the receiving antenna. Our company's JTD-GLA-1164-1616-40 is more practical than other similar products on the market.
