MOPA series Indoor Directional MIMO Panel antenna for in-building applications such as DAS providing MIMO performance for the complete frequency range from 698-4000MHz. Broadband MIMO Panel directional antenna for high-capacity venues like stadiums or campuses.

- Wideband Directional Panel Antenna, coverage 698MHz – 4000MHz.
- Typically both used in indoor/outdoor distribution of GSM/DCS /WCDMA/LTE/5GNR services.
- Low return loss, Stable performance.
- Compact, light-weight and easy to install.
- Supplied with mounting clamp.
- PIM<-107dBc @ 2x33 dbm.
- N-female/ 7/16 DIN/ MINI-DIN compliant.
