- . Two signal ports with full duplex design.
- . Linear power amplification to effectively suppress inter-modulation and spurious emission.
- . Stable and improved signal transmission quality.
- . Compact size with stable performance.
- . Smart Automatic Level Control (ALC) ensures output level stable and adjustable continuously.
- . Auto Isolation check between service and donor antennas.
- . Smart mode to auto-adjust gain according to the isolation and signal level received by donor site.
- . Auto shut off function available for both uplink and downlink.
- . LCD display to show the instant gain and power.
- . Low interference & Oscillation prevention.
- . Cost-effective for practical solutions.
