| Two signal ports with full duplex design.

| Linear power amplification to effectively suppress inter-modulation and spurious emission.

| Stable and improved signal transmission quality.

| Compact size with stable performance.

- | Smart Automatic Level Control (ALC) ensures output level stable and adjustable continuously.
- | Auto Isolation check between service and donor antennas.
- | Smart mode to auto-adjust gain according to the isolation and signal level received by donor site.
- | Auto shut off function available for both uplink and downlink.
- | Simple installation with external AC/DC adapter.
- | Cost-effective for practical solutions.
