It adopts ‘metal ceramics gas lightning tube’ coaxial protection technology.

N type gas discharge surge protector (DC-3G) is in accordance with IEC60169-16: 1982 and IEC61643-11 of class I.

Frequency range (MHz)	0~3000
Max, peak power (W)	200
Discharge capacity: (kA , 8/20μS wave)	20
Discharge voltage (V)	75/90/150/230/350
Impedance (Ω)	50
AC(Vmin) Pressure	2500V 1min No breakdown and no arcing phenomenon
Insulation resistance (MΩ)	>5000
Insertion loss (dB)	<0.50
V.S.W.R	<1.20
Waterproof	IP67
