² ???? AC/DC ????????

² Two signal ports with full duplex design.

- ² Linear power amplification to effectively suppress inter-modulation and spurious emission.
- ² Stable and improved signal transmission quality.
- ² Smart Automatic Level Control (ALC) ensures output level stable and adjustable continuously.
- ² Auto Isolation check between service and donor antennas.
- ² LCD real-time display to show the working status of each system.
- ² Auto shut off function available for both uplink and downlink.
- ² Smart mode to auto-adjust gain according to the isolation and signal level received by donor site.
- ² Simple installation with external AC/DC adapter
