??

Key features

- Ø Four signal ports with full duplex design.
- Ø Supporting 2x2 MIMO
- Ø Linear power amplification to effectively suppress inter-modulation and spurious emission.
- Ø Stable and improved signal transmission quality.
- Ø Built-in 5G Dynamic TDD Sync Detection Module, automatic completion of 5G wireless network cell search and wireless signaling processing.
- Ø Smart Automatic Level Control (ALC) ensures output level stable and adjustable continuously.

- ∅ Auto Isolation check between service and donor antennas.
- ∅ Smart mode to auto-adjust gain according to the isolation and signal level received by donor site.
- ∅ Simple installation with external AC/DC adapter.
 - ∅ Cost-effective for practical solutions.
