4x4

Hybrid Combiner Low PIM 600-6000MHz 200W 6dB 4.3-10F - 161dBc PIM IP65  
4x4 Hybrid Combiner (4x4) DAS

### UWB Hybrid Combiner (4x4)

4x4 Hybrid Combiner is a matrix of Combiners arranged so that signals applied to any of the four inputs will be split equally between the four outputs. This allows combining of multiple signals to a common input as might be required for a neutral host DAS for an in-building design.
